INTRODUCTORY

Our third edition of The Chico-Oroville Directory is herewith presented to our patrons. As in former editions, we have made a close house-to-house canvass, which has not been confined to the Chico city limits, but we have covered all territory that is naturally known by the outsiders as Chico Proper, which includes districts, viz: Chico Vecino, Chapmantown, Barber, Oakdale, Davis Addition, and Nord.

POPULATION

The present issue of the Chico Directory contains 5406 names, and using 2½ as multiplier to represent the women and children not included in the canvas, would indicate the present population for Greater Chico to be **13,515.**

Copies of this Directory are placed in all the Libraries of the principal cities throughout the United States for the free use of the people seeking information. The advertisers, which show a large representation, cannot fail to create a favorable impression with those seeking information regarding Butte County and its business interests.

To the Business Public for the patronage extended us on the present issue of the Directory, we extend our hearty and sincere thanks.

R. L. POLK & COMPANY, Publishers.

CHICO--"The Rose City"

(BY MISS JESSIE E. GIBSON.)

Chico (pronounced Chee'ko) is a small but beautiful and progressive city with a population of more than 13,000. Situated as it is in the very center of Butte County, the most productive and resourceful county in the State of California, the wonder State of the Union, Chico has unlimited possibilities.

Chico is only 90 miles from Sacramento, the capital city of California, and about 26 miles from Oroville, the county seat of Butte County. It is on the main line of the Southern Pacific, and is the northern terminus of the Northern Electric Railroad. Here are located their car barns and electric shops, together with all the various offices of the company.

Educationally, Chico is unsurpassed; with an excellent Normal School, having an average attendance of 300 pupils; a new and well-equipped High School, costing $50,000; eight graded schools, with more than 2500 pupils; a flourishing business college, the northern link of Heald's chain; and a beautiful public library. Religiously, Chico is in the front rank, with fourteen churches, of all denominations, all occupying new and imposing structures.

For amusements, Chico has a rotunda, bath and amusement house; the finest theatre in the interior of California; three moving picture houses; a splendid race track, the "Speedway," where some of the finest horses in Northern California are reared and raced; and has recently been deeded a park of 1920 acres of wonderful natural scenery, stretching up into the foothills of the Sierras, and traversed by the limpid waters of a beautiful mountain stream; also a beautiful park for a children's playground.

Chico has three first-class hotels, well patronized at all times; and daily newspapers, published by energetic and public-spirited men.

The streets of Chico are all being paved with asphaltum, and are clean and well kept throughout the city. City improvements are constantly being made, such as putting all electric wires underground, laying of new gas mains, sanitary improvements, etc.

Chico has modern, up-to-date office buildings, with elevators and steam heat; and a City Hall, which would be a credit to any city, has been recently completed.

The Diamond Match Company gives employment to 1200 men. Chico has a flour mill; an alfalfa mill, which creates a heavy demand for the abundance of alfalfa raised in the vicinity; and the Sacramento Valley Sugar Company is located just across the Sacramento River.

The famous Bidwell orchard lands are being subdivided and placed on the market. These lands are unexcelled for fertility and productiveness.

Chico's surroundings are superb. To the east lie the beautiful Sierra Nevada Mountains. A silent example of the old adage, "'Tis distance lends enchantment to the view," is Mt. Shasta, which presents an awe-inspiring picture as she towers 14,380 feet above the valley, on the north. Only twelve miles from Chico is the famous Richardson Springs health resort, while seven miles to the west flows the placid Sacramento.

Chico is the home of all sorts of fruits and nuts; in fact, there is nothing in this line that cannot be grown with success in the vicinity of Chico. Oranges and palm trees line the streets on either side; roses grow in profusion, and the sweet magnolia scents the balmy air. With but little irrigation, Chico has an abundance of fruits and flowers the year round.

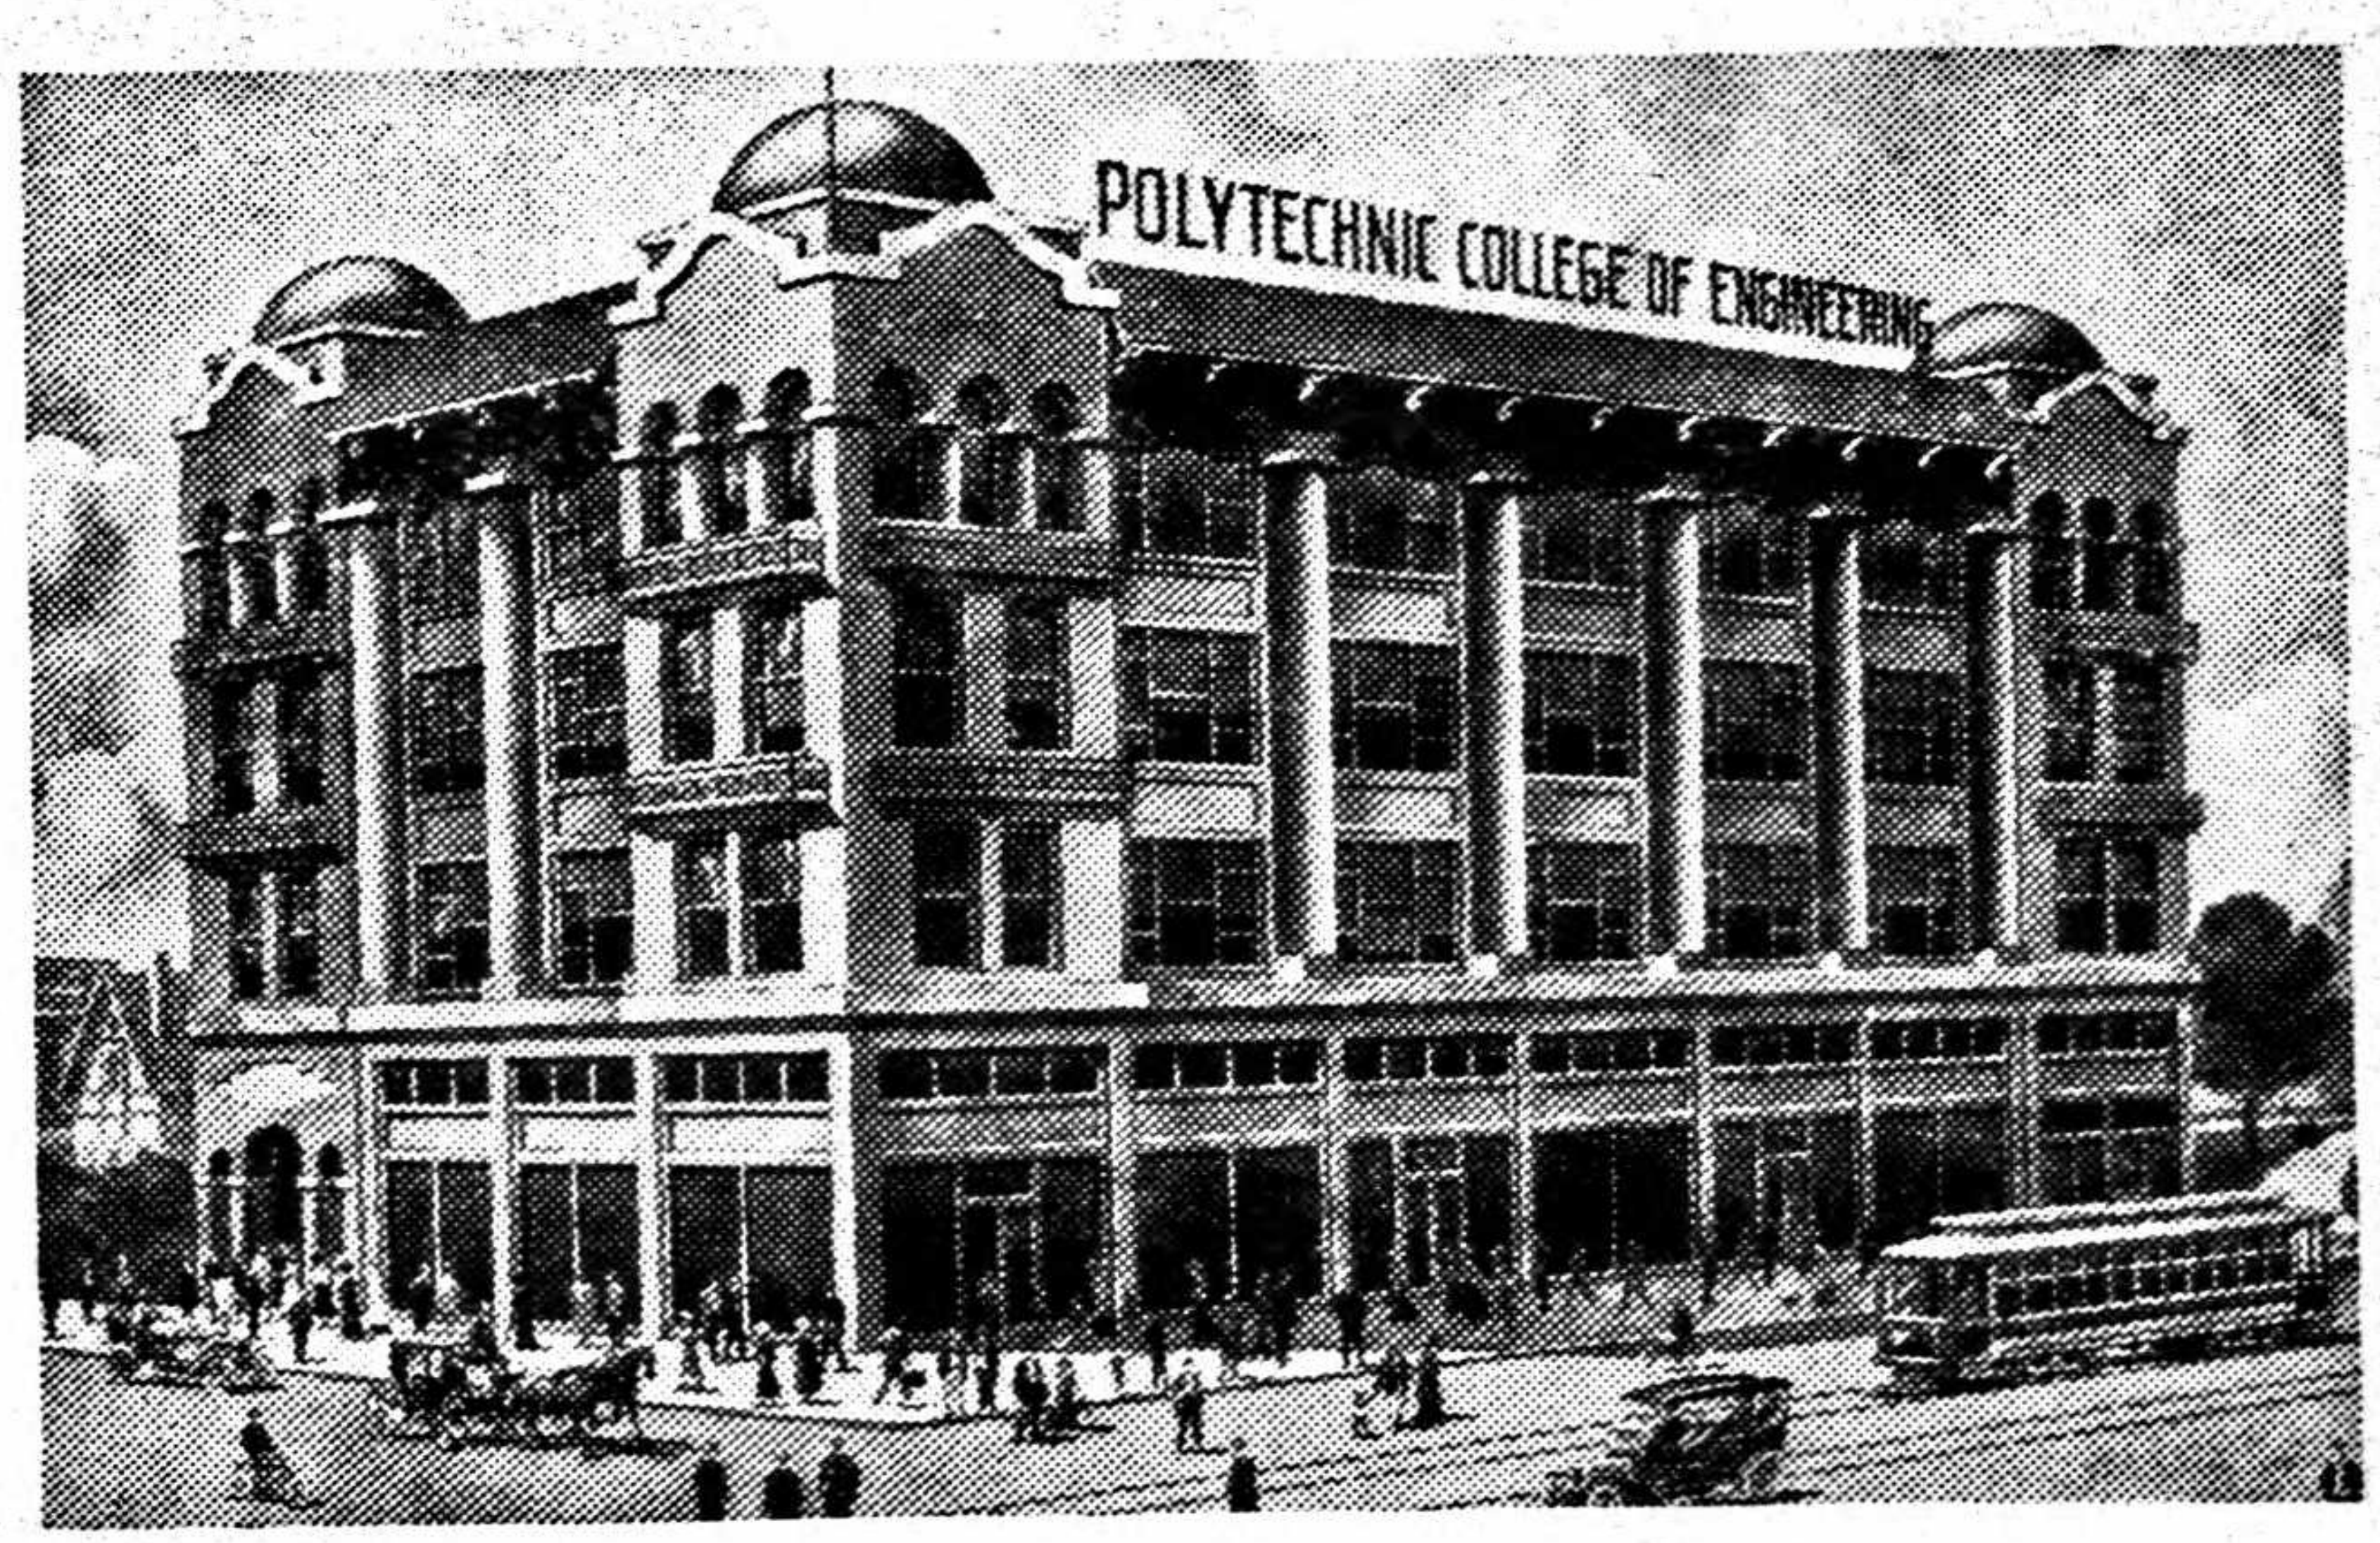
Polytechnic College of Engineering
THIRTEENTH AND MADISON STREETS
Oakland, California



The Polytechnic College of Engineering

is the most practical school of its kind in the West. It is the only technical college in California that engages in actual engineering work.

PLAN AND POLICY—To give to young men an opportunity to specialize on the essential branches of a technical course without compelling them to take the non-essential branches.

To give a more practical training and in a shorter time than our Universities can give.

Every Modern Equipment—Machine Shops, Electrical Laboratories, Steam Plant, Pattern Shop, etc.

OROVILLE

The Gem of California and Railroad Gateway to the Sacramento Valley.

Location—County seat of Butte County, in the great Sacramento Valley, 150 miles from San Francisco; 76 miles from Sacramento, the capital of the State.

Population—1905, 2500; 1910, 4000.

Climate—The pleasant semi-tropical, healthful California climate.

Schools—Good grammar schools; high school accredited to the State and Stanford Universities; State Normal in the county.

Churches—Methodist, Congregational, Episcopal, Catholic, and Christian Science.

Railroads—Western Pacific, Southern Pacific, Butte & Plumas, and Northern Electric. Western Pacific division terminal.

Industries—The largest dredging field in the world. The largest electric power plant in the world. The largest ripe olive pickling plant in the world; Oroville olive oil awarded first gold medal over all Mediterranean competition at Paris, also at St. Louis, Portland and Seattle expositions. The most modern sawmill in the United States. Two artificial ice and refrigerating plants. Best locality for factories in the State. Best olive land in the State. Largest irrigation system in the Sacramento Valley. Center of the famous Sacramento Valley orange belt; oranges ripen six weeks earlier than in Southern California. Walnuts, almonds, pecans, figs, peaches, pears, plums, prunes, grapes, and apples produce abundantly. Small grains, alfalfa, sugar beets and vegetables are good money-makers. Poultry and dairying are paying industries.

Mineral—Butte County produces more gold than any other county in California. Awarded first prize for precious stones at the State Fair in 1907. Kimberlite, the matrix of the diamond in South Africa, has been discovered and capital is now engaged in developing a diamond mine.

Timber—Large virgin forests of California soft pines awaiting development.

Sport—Twenty miles by the Western Pacific Railway to the best hunting, trout fishing, health and pleasure resorts in the Sierra Nevada mountains.

The city has just completed a new sewer system at a cost of $100,000; also a new grammar school building at a cost of $45,000. Over three miles of cement sidewalks have been built during the last year.

The city is well equipped with fire-fighting apparatus, having recently added a chemical and hose automobile at a cost of $6000.

A Carnegie Library, at a cost of $10,000, has just been erected, and is an ornament to the city.

A live Chamber of Commerce, with a membership of one hundred and fifty-four members, is looking after the interests of the locality. Under its auspices an Orange and Olive Exposition was given last December and was a decided success.

An irrigation district adjoining the city on the east and south is one of the possibilities of the near future, and will mean much to Oroville.

Oroville has a fine Exposition Building, built last year at a cost of $25,000 by a stock company composed of its citizens.

Opportunities alike for the man of small means and the capitalist. Write to the OROVILLE CHAMBER OF COMMERCE for further information.
